

Indonesia: Architectural Guide

Conrad Wedding Chapel
Jalan Pratama 16B
Nusa Dua 80363
Studio Tonfon & andranatic
2016

The iconic chapel is located on the shores of Tanjung Banoa in the Nusa Dua tourism complex. The combination of ideas from two famous architectural firms, Studio Tonfon and andranatic, resulted in the asymmetrical triangular chapel. The shape of the building mass represents the relations of God, man, and nature. The asymmetric design is apparent in the contrast

025

of materials that represent the masculine – the solid mass from travertine – and the feminine – the transparent mass made of glass – aspects of humanity. The chapel is built floating on a reflecting pool with a long pathway serving as the main access. Rows of lamps are placed along the single main access to light the way to the chapel at night. Within the chapel, the view across the wide open sea and sky is the main vista. Conrad Wedding Chapel is able to hold three hundred people and is one of the most preferred wedding venues in Indonesia. Studio Tonfon was awarded the 2016 IAI Jakarta award for this project.
